PROFESSIONAL

Forecasting Analyst Intern | Global Operations - Glovo - *Delivery Platform* — **March - September 2026**, **Barcelona, Spain**

- Forecasted weekly rider supply for 5 countries: Poland (South part), Ukraine (West part), Armenia, Georgia, Kyrgyzstan, covering several hundred thousand orders and rider slots per week.
- Reached +8pts vs. target in forecast accuracy (share of forecasts neither over nor under forecasted), by reviewing past forecasts to identify and fix gaps and by leading weekly meetings with the 5 local teams to integrate local input and adjust forecasts.
- Designed and built a web app to improve forecast accuracy across the 3 markets (Europe, Africa, Asia), used daily by all forecasting team members, combining multi-view dashboards, AI-generated summaries for each zone and a chatbot.
- Created AI skills to automate forecast adjustments.

Data Analyst Intern - Oslo - *IT Solutions (On-Prem & SaaS)* — **September - December 2025**, **Villeneuve d'Ascq, France**

- Developed 13 analytical data models, 6 dashboards and 6 automated Excel business tools, alongside regular data extractions on business activity to support operational and financial decision-making across 4 business units and 3 entities.
- Built a production planning framework covering ~1,000 annual orders, with associated performance reporting (revenue, margin, sales volumes), used weekly by management to support decision-making.
- Redesigned a revenue recognition data model to enable monthly revenue allocation based on actual business activity, reducing annual discrepancies from €350k to €8k.
- Developed automated cash flow calculation tools for 3 entities, configurable by analysis period.
- Automated aged receivables reporting for 3 business units to improve collections and cash management.
- Automated VAT calculations based on unmatched supplier accounting entries, saving 2 hours per month and manual errors.

Business Developer Intern - Pain de Minuit - *Upcycled Startup Beverage* — **February - July 2024**, **Nieppe, France**

- Acquired 105 new B2B clients (avg. 21/month)
- Ensured client retention through structured follow-ups at +30, +90, and +120 days.
- Managed end-to-end logistics operations for distributor orders ranging from €3,000 to €10,000

VOLUNTEERING

Treasurer - Cordée de la réussite - *State-Supported Non-Profit Organization* — **January - June 2025**, **Mont-saint-Aignant, France**

- Managed a €49,000 public budget to finance activities, purchases and services for students from Priority Education Zones.
- Built budget forecasts ensuring 100% execution of the program.
- Monitored expenses and processed 86 invoices.
